### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133).
- Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Specification*

1. Applicant is reminded of the proper language and format for an abstract of the disclosure.

The abstract should be in narrative form and generally limited to a single paragraph on a separate sheet within the **range of 50 to 150 words**. It is important that the abstract not exceed 150 words in length since the space provided for the abstract on the computer tape used by the printer is limited. The form and legal phraseology often used in patent claims, such as "means" and "said," should be avoided. The abstract should describe the disclosure sufficiently to assist readers in deciding whether there is a need for consulting the full patent text for details.

The language should be clear and concise and should not repeat information given in the title. It should avoid using phrases which can be implied, such as, "The disclosure concerns," "The disclosure defined by this invention," "The disclosure describes," etc.

### ***Claim Rejections - 35 USC § 102***

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 21-24, and 27-37 are rejected under 35 U.S.C. 102(b) as being anticipated by Watanabe et al. (U. S. Patent 5,319,159).

As to claims 21-22, 27-29, and 36-37, Watanabe discloses a structure and method of forming a conductive path (2) within a laminate (3) as shown in figures 1-2 comprising:

Art Unit: 2827

a conductive element (6-figure 1c, column 3, line 66, and 9-figure 1f, column 4, line 17) embedded into an opening (through hole-4, column 3, line 56) of a laminate (3), the conductive element (6, 9) is press into the opening (4) of the laminate, wherein a portion of the conductive element (6, 9) formed at least one contact pad (copper plating layer 6-see figures 1d-1f) extending beyond a surface of the laminate (3), wherein the conductive element includes an inner element (9) covered by an outer element (6).

As to claims 23-24, and 30, Watanabe discloses the structure and method as shown in figures 1-2 wherein the conductive element (9) is a sphere (see figure 1e) or cylinder (figure 1f).

As to claims 31 and 34, Watanabe discloses the structure and method as shown in figures 1-2 wherein the outer element (6) of the conductive element is a copper (column 3, line 66).

As to claim 32, Watanabe discloses the structure as shown in figures 1-2 wherein the laminate is glass-reinforced carrier (column 2, lines 56-58).

As to claims 33 and 35, Watanabe discloses the structure and method as shown in figures 1-13 wherein the inner element of the conductive element (9) is an insulating material such as epoxy resin (column 4, line 11).

### ***Response to Arguments***

4. Applicant's arguments with respect to claims 21-14 and 27-37 have been considered but are moot in view of the new ground(s) of rejection.

***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Distefano et al., Moden, Bhatt et al., and Lubert et al. disclose related art.
